Scitec and Avaya Sign EMEA Telephone Licensing and Distribution Agreement.

Scitec, Inc. has today announced the signing of a licensing agreement with Avaya Inc. Under the terms of the multi-year agreement, Scitec will market a new series of Avaya-branded analog telephones through Avaya sales and distribution channels in Europe, Middle East, and Africa (EMEA). Scitec currently provides, under an OEM/ ODM arrangement, Avaya 6200 Series and 2500 Series analog handsets, including Avaya feature phone models 6211, 6219, 6221, Avaya single-line industry standard 2500 MMGN, 2500 YMGP desk sets, and Avaya 2554 MMGN, and 2554 YMGP single-line wall telephones.

"Avaya has clearly established itself as a world leader in telephony. We are pleased to license the Avaya brand and look forward to working together to drive new EMEA market opportunities. Our primary goal is to increase Avaya's market share on the desktop," said Jose Quiros, VP Sales and Marketing, Scitec/TeleMatrix.

"This is a win-win agreement. We chose Scitec as an EMEA partner because they understand Avaya telephony products and markets, and value customer relationships. Our agreement will allow us to create a stronger value proposition for our EMEA customers," states Brian Bettinger, Global TDM Product Manager, Avaya, Inc.
